

As a building supplier, Forge Lumber is an essential business in Kentucky, Ohio and Indiana and we remain open, with some changes to our operations, to support our customers and community.

- We are continuing to make deliveries from our facilities. Deliveries will remain contactless, with our drivers taking delivery photos in lieu of signatures and adhering to the 6 feet social distancing recommendations.
- Our facilities remain open, but for order pick up only. We will no longer accept checks or cash for pickups. You must call ahead prior to picking up your order and our staff will ensure that we have it ready to bring to your vehicle for pick up.

The safety of our associates, customers and communities remains our top priority, and we are committed to doing our part to help support you and our neighbors during these challenging times.

Thank you for your continued partnership.
